

MERCER

STYLE: MOLDED FLAT PANEL | SMOOTH

The Mercer provides a serene aesthetic, satisfying to the eye without overpowering the space. The clearly defined profile is at home in decors from Craftsman to Contemporary. Mercer provides the authentic look of a true, recessed panel door, including the dramatic shadow lines that today's builders, renovators, developers, designers and homeowners seek. Whether the project is Traditional, Shaker, Craftsman, Contemporary or Eclectic, Mercer is a tasteful choice and one that will retain its appeal over time.

FEATURES

Mercer has a single, flat panel and clean, uncomplicated profile. Uniquely versatile, Mercer's simple look suits many decors, from traditional to contemporary. Flat panel profile with beveled sticking – closely resembles a Shaker or square profile.

- Molded fiberboard. Resists shrinking, swelling, cracking, and joint separation.
- Offered in hollow or solid core construction and 1-3/8" and 20-minute rated/non-rated 1-3/4" thickness.
- Passage and bifold doors offered in 6'8", 7'0" & 8'0" sizes.
- 10" high bottom rail in 7'0" and 8'0" sizes. Meets most disability access requirements. See line drawings for details.
