

HEALTHCARE & ASSISTED LIVING DOOR SOLUTIONS

Engineered for Healthcare. Built for Life.

From in-home care and hospice to clinics and trauma centers, every healthcare environment has unique needs. At Lynden Door, we design and manufacture door systems purpose-built for safety, comfort, and performance in care settings.

Whether your project requires antimicrobial surfaces, lead-lined cores, or enhanced acoustics, our solutions are designed to support healing environments. With factory pre-finishing and customizable features, we help create spaces that are as resilient as they are welcoming.

PURPOSE-BUILT FOR THE DEMANDS OF HEALTHCARE

Healthcare spaces require more than standard solutions. That's why Lynden Door delivers doors engineered to meet the specific demands of medical and assisted living environments—from high-traffic corridors to quiet patient rooms.

With decades of experience, we collaborate with architects and builders across North America to deliver solutions that perform reliably, clean easily, and enhance the aesthetic of care environments.

WHY LYNDEN DOOR?

Lynden Door is a trusted partner to healthcare professionals, architects, and contractors seeking durable, hygienic, and performance-tested interior door systems.

WE OFFER:

- **Durability That Delivers:** Built for high-use spaces like trauma centers, rehab facilities, and memory care. Heavy-duty cores and finishes designed for repeated cleaning and daily wear.
- **Cleanability & Hygiene:** Smooth surfaces and antimicrobial options support infection control and easy maintenance.
- **Design Flexibility:** Warm woodgrain visuals and tailored details help create calm, patient-centered spaces. Choose from wood veneers or high-pressure laminate for beauty and performance.
- **Code Compliance & Performance:** Fire ratings, lead-lining, and acoustic options ensure safety and privacy. STC-rated doors, vision lites, privacy panels, and ADA-compliant configurations available.

RECOMMENDED PRODUCTS FOR HEALTHCARE SETTINGS

WOOD VENEERS

Finished with a factory-applied urethane coating, our veneers bring natural beauty and durability—a warm and peaceful choice for spaces where comfort matters.

LAMINATES

They are highly valued for their consistency, easy care, and resistance to staining and biological growth. Laminates are ideal for care homes, hospitals, and other sensitive environments.

For over 40 years, Lynden Door has supported healthcare and senior living environments with solutions that prioritize safety, wellness, and dignity for patients, residents, and caregivers alike.
