

FOR IMMEDIATE RELEASE

LYNDEN DOOR AND ALLIANCE DOOR PRODUCTS REINFORCE LONG-TERM COMMITMENT TO CANADA WITH MAJOR MANUFACTURING EXPANSION

Lynden, WA, USA – January 9th, 2026

Lynden Door and Alliance Door Products are pleased to announce significant expansion plans that strengthen their long-standing commitment to the Canadian market. Guided by a shared belief in connecting customer needs to supplier solutions through a network of market-leading companies, the organizations are investing in two strategic manufacturing initiatives: the development of a new door manufacturing facility in Ontario and the expansion of manufacturing capacity at Lynden Door Canada in Yarrow, British Columbia.

These investments reflect continued growth across the country and a commitment to delivering high-quality, Canadian-made door solutions nationwide.

Strategic Manufacturing Expansion

New Door Manufacturing Facility — Ontario

Plans are underway to construct a new residential door manufacturing facility in Eastern Canada. Targeted to be operational in early 2027, the Ontario facility will support residential door customers throughout Ontario, Québec, and Atlantic Canada.

Expansion of Yarrow, British Columbia Manufacturing Operations

Construction is currently in progress on a new raw-materials warehouse at the Lynden Door manufacturing facility in Yarrow, BC. Upon completion in 2026, this expansion will increase manufacturing capacity and further strengthen the supply of residential doors throughout Western Canada.

Leadership and Continued Growth

John Ridder, President of Alliance Door Products Canada, is leading the manufacturing initiative in Eastern Canada. Over the past 25 years, John has played a key role in driving the growth of Lynden Door and Alliance Door Products across North America, building strong customer relationships throughout Canada and the United States.

Building on the strong relationships at the Alliance Door Products distribution branch in St. Thomas, Ontario, and responding to continued customer demand, these investments will ensure

consistent product quality, service, and availability across Western Canada, the Prairies, Eastern Canada, and Atlantic Canada.

This Canadian expansion follows recent Alliance Door Products branch openings in Denver, Colorado, and Salt Lake City, Utah, further reflecting the company's strategic growth across North America.

A Remarkable Canadian Legacy

The Lynden Door Family of Companies traces its roots back more than 70 years to British Columbia. Since its inception, the family-owned organization has established manufacturing operations in Yarrow, BC, along with distribution facilities in Abbotsford, BC, and throughout Western Canada, including Calgary, Winnipeg, Edmonton, and, most recently, St. Thomas, Ontario. The new manufacturing expansions mark a major step toward becoming a truly national partner for door and millwork solutions.

Together, Lynden Door and Alliance Door Products look forward to serving customers coast to coast with high-quality products manufactured and assembled in Canada—by Canadians, for Canadians.

About the Lynden Door Family of Companies

Family-owned and operated, the Lynden Door Family of Companies is located on a 70-acre site in Lynden, Washington. This central campus is home to **Lynden Door**, affiliated companies including **Victory Millwork**, **Source Engineering** and **Lynden Door Trucking**, and the corporate headquarters of **Alliance Door Products**.

Founded in 1978, **Lynden Door** has become one of the leading manufacturers of residential, commercial, and architectural interior doors in the Western U.S. and Canada. The business is built around faithfully serving people and supporting Christian ministries. As a family-owned business, their desire is to extend that “family” atmosphere to customers, suppliers, and employees and to honor God in how Lynden Door conducts business.

Alliance Door Products, part of the Lynden Door Family of Companies, is a wholesale distributor of architectural, commercial, and residential interior and exterior doors, door systems, hardware, and millwork throughout the United States and Canada. Alliance Door Products is committed to providing high-quality products and responsive service, supporting its customers and partners, caring for its communities, and honouring God.

Headquartered in Lynden, WA, Alliance Door Products operates locations in Denver, Colorado; Portland, Oregon; Salt Lake City, Utah; Seattle, Washington; Spokane, Washington; Abbotsford, British Columbia; Calgary, Alberta; Edmonton, Alberta; St. Thomas, Ontario; and Winnipeg, Manitoba.
